**Summary:** Would amend the Mental Health Services Act by instead requiring that any funds allocated since the 2008-09 fiscal year, except as specified, to a large, medium, small, or very small county, as defined, that have not been spent for their authorized purpose within 3 years of being allocated, and any interest earned on unspent funds, revert to the state for deposit into the newly established

Mental Health Services Act Reversion Fund. The bill would authorize a very small county to apply for a waiver, subject to approval by the commission, requesting a delay of the reversion of funds, but not for more than 5 fiscal years from the time of allocation of funds.

**Summary:** For specified vital documents that are not standardized but contain enrollee or insured specific information, current law does not require a health care service plan or health insurer to translate the documents into threshold languages identified by the needs assessment, but instead requires a written notice of availability of interpretation services in threshold languages identified by the needs assessment to be included with those vital documents. This bill would also require this written notice to be made available in the top 15 languages spoken by limited-English-proficient (LEP) individuals in California identified annually by the United States Census Bureau.

**Summary:** Current law permits a peace officer to not release a person if, among other reasons, the person is so intoxicated that he or she is a danger to himself or herself or others, there are one or more outstanding arrest warrants for the person, or the person cannot provide satisfactory evidence of personal identification. This bill would also permit a peace officer to not release an individual if he or she was arrested for a misdemeanor violation of various crimes related to burglary, theft, and shoplifting. By increasing the number of persons subject to detention at the county jail, this bill would create a state-mandated local program.
