AGENDA

- 1. Welcome and Introductions**
- 2. The Mental Detriment of Family Separation Presentation - Presented by Randall Hagar**
The recent policy of family separation at our southern border raises a number of concerns about the resulting effects on the health and well-being of separated children and their families, both immediate and long-term. This presentation includes a white paper that details what scientific evidence can tell us, a slide show to put that evidence into an easily understandable format, and policy recommendations so that we are doing our utmost to provide assistance to these families.
- 3. Adjourn**

Special thanks to Johnson & Johnson for sponsoring lunch!
